

**School of Science and Mathematics**  
**Pre-meeting exercise sheet**

For each of the following categories, select **AT MOST THREE** things you would like our school should prioritize in 2020/21. Think of **AT LEAST THREE** comments on the category.

**Category 1 Degree Program Perspectives**

- New or revised degrees such as flexible BIOL AS and Environmental Science AS
- Honors program
- More transfer pathways and destination institutions
- More online and hybrid sections
- Alumni connections
- More students to Auggie plan.
- Commit to offering upper division classes for graduation requirements
- Connect to industry and employers.
- Undergrad student research.
- Other: \_\_\_\_\_

**Category 2 Student Success and Achievement Gap**

- Promoting active learning (techniques, practices, strategies, etc.) within the school
- Learner-centered syllabi
- More conversations on teaching
- Better support students: study materials, embedded tutors, etc.
- Working with high schools to improve student readiness.
- Math/science clubs for students of color.
- Study groups.
- More STEM opportunity to improve student engagement.
- Other: \_\_\_\_\_

**Category 3 Other Things Our School Should Pursue This Year**
